

Trade in, trade up to a ReefKeeper Elite and we'll give you \$100!

Digital Aquatics is offering a \$100 refund on a ReefKeeper Elite purchase when you trade-in any controller listed below. The controller can be in ANY condition from new to completely unusable! If you have an old, broken, damaged, out of warranty, or outdated controller that you can't use, wont use, or just don't want... ..we'll take it off your hands!

This offer is good for purchases made on or after 10/27/08.

Here's how it works:

- 1) Send an email to tradein@digitalaquatics.com and let us know that you have a qualifying controller that you want to trade in.
- 2) Receive an RMA number from Digital Aquatics for your trade-in.
- 3) Purchase a new ReefKeeper Elite from Digital Aquatics online store.
- 4) Send us your trade-in within 15 days of placing your order and we'll refund you \$100 from your qualifying RKE purchase.

It's that easy!

We understand that things get old, stop working or just get damaged and aren't covered under warranty; this leaves the customer without any options and a controller that's of no use. We don't care who made it, where you got it, or why it stopped working. If you have the required hardware we'll take it off your hands and give you a \$100 back on the purchase of a new ReefKeeper Elite system. When we say working or not we mean it! All we need are the listed parts and it qualifies.

What we'll need is the following:

- A control unit or head unit, (the device that programs, displays and manages the system)
- A controllable power strip with 4 or more outlets that interfaces/interfaced with the head unit provided

If you don't see your system/controller listed contact us and we'll see if it meets the requirements for this program.

Qualifying systems include:

-Digital Aquatics:

- ReefKeeper 1
- ReefKeeper 2

***NOTE:** Any Digital Aquatics products that are received MAY be reconditioned (if possible,) and donated free of charge to classrooms across the country. If you know of, or participate in a program for schools let us know and we'd love to work with you if possible as units become available.*

-Neptune:

- AC
- AC2
- AC3
- AC3pro
- ACJr

-Proflux/GHL
